

Computer unit components:

- 1) computer unit case
- 2) power supply,
- 3) hard disk,
- 4) ram,
- 5) motherboard,
- 6) CPU,
- 7) graphics card

|               | case | power supply | hard disk | RAM | motherboard | CPU | graphics card |
|---------------|------|--------------|-----------|-----|-------------|-----|---------------|
| case          |      |              |           |     |             |     |               |
| power supply  | x    |              |           |     |             |     |               |
| hard disk     | x    | x            |           |     | x           |     |               |
| RAM           |      |              |           |     | x           |     |               |
| motherboard   | x    | x            |           |     |             |     |               |
| CPU           |      |              |           |     | x           |     |               |
| graphics card | x    | x            |           |     | x           |     |               |
